

The inspiration and idea of **GB20** came from our teams' experiences and successes in growing and turning around businesses. It allowed us to build the financial freedom to be able to make our own choices in life and be able to take those experiences and help others by sharing our knowledge and firsthand lessons learned while investing in others. We love to give back to others through investing capital and our human capital in you, your team, and your company. This will hopefully allow you to achieve the same freedom in life we have in a shorter timeframe when you engage with **GB20**. At the end of the day, DO IT! Nobody else but you can make that choice... Never Quit and always DREAM BIG!

**GB20**
